

Press Release

**Cerenis Therapeutics announces participation
at the 19th annual Rodman & Renshaw global investment conference
in New York city, September 10-12, 2017**

Toulouse, FRANCE, Ann Arbor, UNITED-STATES, September 4, 2017, 6:00pm (CEST) – Cerenis Therapeutics (FR0012616852 – CEREN – PEA PME eligible), an international biopharmaceutical company dedicated to the discovery and development of innovative therapies based on lipid metabolism for treating cardiovascular and metabolic diseases, today announced it will be featured as a presenting company at the 19th Annual Rodman & Renshaw Global Investment Conference, sponsored by H.C. Wainwright & Co., LLC. The conference is being held on September 10-12, 2017 at Lotte New York Palace Hotel in New York City.

Jean-Louis Dasseux, founder and CEO of Cerenis Therapeutics, will provide an overview of the Company's business during the live presentation and will be available to participate in one-on-one meetings with investors who are registered to attend the conference.

If you are an institutional investor, and would like to attend the Company's presentation, please click on the following link (www.rodmanevents.com) to register for the Rodman & Renshaw conference. Once your registration is confirmed, you will be prompted to log into the conference website to request a one-on-one meeting with the Company.

Event: 19th Annual Rodman & Renshaw Global Investment Conference

Date: September 10-12, 2017

Time: 10:50-11:15 (Eastern Time)

Location: room Kennedy II; Lotte New York Palace Hotel in New York City

About Cerenis: www.cerenis.com

Cerenis Therapeutics is an international biopharmaceutical company dedicated to the discovery and development of innovative lipid metabolism therapies for the treatment of cardiovascular and metabolic diseases. HDL is the primary mediator of the reverse lipid transport, or RLT, the only natural pathway by which excess lipids is removed from arteries and is transported to the liver for elimination from the body.

Cerenis is developing a portfolio of lipid metabolism therapies, including HDL mimetics for patients with genetic HDL deficiency, as well as drugs which increase HDL for patients with a low number of HDL particles to treat atherosclerosis and associated metabolic diseases including Non-Alcoholic Fatty Liver Disease (NAFLD) and Non-Alcoholic Steato-Hepatitis (NASH).

Cerenis is well positioned to become one of the leaders in the HDL therapeutic market, with a broad portfolio of programs in development.
